

Silver Airline compressors

Powerful, safe and actually too good for the cellar.

You can find further information here.

Selection of compressors
for 1 to 16 users

Future-proof networking
with VistaSoft Monitor

Compressed air quality
after ISO 22052 with use
of a bacteria filter

Class IIa certified medical
device according to MDR
(EU 2017/745)

Ø Filter change

VistaSoft Monitor

1 x year

Change filters for the best
compressed air quality

Future-proof networking:

VistaSoft Monitor is used to monitor the operating status, to permanently ensure functioning, and for signalling to your (mobile) end device or by email z. e.g. for automatic information about a filter change on the Tandem compressor. Whether by PC or mobile phone – you always keep a clear overview of your practice.

ISO 22052

The most important facts at a glance

The ISO 22052 specifies requirements for the quality of dental compressed air to ensure the safety and effectiveness of dental equipment. This is, of course, fulfilled by Dürr Dental compressors.

The right compressed air for every requirement - our Silver Airline compressors
